# FRÉDÉRIC MAGNIEN

GRANDS VINS DE BOURGOGNE

PREMIER CRU

## CHASSAGNE-MONTRACHET

Les Baudines

### GEOGRAPHIC DESCRIPTION

It was in 1879 that Chassagne chose to add to his name that of his best cru and thus became Chassagne-Montrachet. There are a total of 19 Premiers Crus planted on calcareous brown and clay soils. Its name "Baudines" is a derivative of the dialect word "Bode" which means "house, cabin" which would testify to the existence of huts at this place.

### GEOLOGICAL DESCRIPTION

The Premier Cru "Les Baudines" is located on the edge of the forest, at the top of the hillside, about 300 meters above sea level. The clay-limestone soil is white in appearance and fairly greasy.

### FOOD & WINE AGREEMENT

A wine that will be enjoyed accompanied by a lobster.
